Dear Hiring Manager,

I am writing to express my interest in the Frontend Developer position at your organization. As a recent Computer Engineering graduate with a strong foundation in React.js, JavaScript, HTML, and CSS, I am eager to apply my skills and grow within a dynamic and collaborative team environment.

Over the past year, I've dedicated myself to learning and building modern web applications. I have hands-on experience developing responsive interfaces and integrating frontend components with backend APIs, ensuring smooth and user-friendly experiences. While I may be early in my professional journey, I am passionate about writing clean, efficient code and continuously improving both the product and my own skill set.

What excites me most about this opportunity is the chance to contribute to building high-quality, interactive user experiences while working alongside like-minded developers. I thrive in environments where creativity, attention to detail, and collaboration are valued.

I've attached my resume for your consideration. My cover letter includes links to my GitHub and portfolio website, where you can explore some of the projects I've built. I would be grateful for the opportunity to further discuss how I can support your team in creating impactful web applications.

Thank you for your time and consideration. I look forward to the opportunity to speak with you.

Sincerely,
Anshul Rawal
